

Banco Santander, S.A. (“**Banco Santander**” or the “**Bank**”), in compliance with the Securities Market legislation, hereby communicates the following:

INSIDE INFORMATION

In application of the Bank’s current shareholder remuneration policy, consisting of a total shareholder remuneration target of c. 50% of the Group’s underlying profit, split approximately in equal parts in cash dividend payments and share buybacks, the board of directors approved to implement a share repurchase programme for an amount equivalent to c. 25% of the Group’s underlying profit in the second half of 2024 (i.e. a programme of approximately 1,587 million euros). The appropriate regulatory authorization for the new programme has already been obtained and its execution will therefore commence from tomorrow as detailed below.

Second Buy-Back Programme for 2024 results

The Buy-Back Programme will be executed pursuant to the resolutions adopted by the general shareholders’ meeting held on 31 March 2023 and will have the following characteristics:

- Purpose of the Buy-Back Programme: to reduce the Bank’s share capital through the redemption of the shares acquired under the Programme in the share capital reduction approved by the 2024 Annual Shareholders’ Meeting under item 5°C of the agenda and/or, where applicable, the capital reduction that will be submitted to the approval of the 2025 Ordinary General Meeting of Shareholders.
- Maximum investment: the Buy-Back Programme will have a maximum monetary amount of 1,587 million euros.
- Maximum number of shares: The maximum number of shares that may be acquired pursuant to the Programme will depend on the average price at which they are acquired but will not exceed 1,413,743,296 shares. Assuming that the average purchase price at which shares are acquired pursuant to the Programme were 5.00 euros, the maximum number of shares that would be acquired would be 317,400,000 (c. 2.10% of the Bank’s share capital).
- Other conditions: shares will be purchased at market price, subject to the following restrictions:
 - The Bank may not purchase shares at a price higher than the greater of the following two: (a) the price of the last independent trade, or (b) the highest current independent purchase bid on the trading venue where the purchase is carried out.
 - The Bank may not purchase on any trading day more than 25% of the average daily volume of the Bank’s shares on the trading venue on which the purchase is carried out.

The average daily volume will be based on the average daily volume traded in the twenty (20) business days preceding the date of each purchase.

- Indicative duration of the Buy-Back Programme: from 6 February 2025 to 27 June 2025. However, the Bank reserves the right to terminate the Buy-Back Programme if, prior to its expiry date, the maximum monetary amount is reached or if any other circumstances so advise.
- Execution of the Buy-Back Programme: the Programme will be executed by the team that, in accordance with the Bank's treasury stock policy, is responsible for the execution of treasury shares transactions. Acquisitions under the Buy-Back Programme may be made in the Spanish Automated Quotation System (*Mercado Continuo*), as well as in Turquoise Europe, DXE Europe and Aquis Exchange Europe.

The interruption, termination or modification of the Buy-Back Programme will be duly communicated to the Spanish National Securities Market Commission (Comisión Nacional del Mercado de Valores). Transactions under the Buy-Back Programme will be publicly disclosed within 7 daily market sessions following the date of their execution.

The decision on the payment of the final gross cash dividend against the 2024 results that will be submitted to the annual general shareholders' meeting is expected to be approved by the Board on February 25th. The implementation of the remainder of the shareholder remuneration policy for 2024 is subject to the appropriate corporate and regulatory approvals.

Non-IFRS and alternative performance measures

This document contains financial information prepared according to International Financial Reporting Standards (IFRS) and taken from our consolidated financial statements, as well as alternative performance measures (APMs) as defined in the Guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority (ESMA) on 5 October 2015, and other non-IFRS measures. The APMs and non-IFRS measures were calculated with information from Grupo Santander; however, they are neither defined or detailed in the applicable financial reporting framework nor audited or reviewed by our auditors. We use these APMs and non-IFRS measures when planning, monitoring and evaluating our performance. We consider them to be useful metrics for our management and investors to compare operating performance between periods. APMs we use are presented unless otherwise specified on a constant FX basis, which is computed by adjusting comparative period reported data for the effects of foreign currency translation differences, which distort period-on-period comparisons. Nonetheless, the APMs and non-IFRS measures are supplemental information; their purpose is not to substitute IFRS measures. Furthermore, companies in our industry and others may calculate or use APMs and non-IFRS measures differently, thus making them less useful for comparison purposes. APMs using ESG labels have not been calculated in accordance with the Taxonomy Regulation or with the indicators for principal adverse impact in SFDR. For further details on APMs and Non-IFRS Measures, including their definition or a reconciliation between any applicable management indicators and the financial data presented in the consolidated financial statements prepared under IFRS, please see the 2023 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission (the SEC) on 21 February 2024 (<https://www.santander.com/content/dam/santander-com/en/documentos/informacion-sobre-resultados-semestrales-y-anales-suministrada-a-la-sec/2024/sec-2023-annual-20-f-2023-en.pdf>), as well as the section "Alternative performance measures" of this Banco Santander, S.A. (Santander) Q4 2024 Financial Report, published on 5 February 2025 (<https://www.santander.com/en/shareholders-and-investors/financial-and-economic-information#quarterly-results>). Underlying measures, which are included in this document, are non-IFRS measures.

Accordingly, the results of operations and trends shown for our geographic segments may differ materially from those of such subsidiaries.
