2020 Earnings Presentation

All. Together. Now.

Important information

Non-IFRS and alternative performance measures

This presentation contains, in addition to the financial information prepared in accordance with International Financial Reporting Standards ("IFRS") and derived from our financial statements, alternative performance measures ("APMs") as defined in the Guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority (ESMA) on 5 October 2015 (ESMA/2015/1415en) and other non-IFRS measures ("Non-IFRS Measures"). These financial measures that qualify as APMs and non-IFRS measures have been calculated with information from Santander Group; however those financial measures are not defined or detailed in the applicable financial reporting framework nor have been audited or reviewed by our auditors. We use these APMs and non-IFRS measures when planning, monitoring and evaluating our performance. We consider these APMs and non-IFRS measures to be useful metrics for our management and investors to compare operating performance between accounting periods, as these measures exclude items outside the ordinary course performance of our business, which are grouped in the "management adjustment" line and are further detailed in Section 3.2 of the Economic and Financial Review in our Directors' Report included in our Annual Report on Form 20-F for the year ended 31 December 2019. Nonetheless, these APMs and non-IFRS measures should be considered supplemental information to, and are not meant to substitute IFRS measures. Furthermore, companies in our industry and others may calculate or use APMs and non-IFRS measures differently, thus making them less useful for comparison purposes. For further details on APMs and Non-IFRS Measures, including its definition or a reconciliation between any applicable management indicators and the financial data presented in the consolidated financial statements prepared under IFRS, please see the 2019 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission on 6 March 2020, as well as the section "Alternative performance measures" of the annex to the Banco Santander, S.A. ("Santander") Q4 2020 Financial Report, published as Inside Information on 3 February 2021. These documents are available on Santander's website (www.santander.com). Underlying measures, which are included in this presentation, are non-IFRS measures.

The businesses included in each of our geographic segments and the accounting principles under which their results are presented here may differ from the included businesses and local applicable accounting principles of our public subsidiaries in such geographies. Accordingly, the results of operations and trends shown for our geographic segments may differ materially from those of such subsidiaries.

Forward-looking statements

Santander advises that this presentation contains "forward-looking statements" as per the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements may be identified by words like "expect", "project", "anticipate", "should", "intend", "probability", "risk", "VaR", "RoRAC", "RoRWA", "TNAV", "target", "goal", "objective", "estimate", "future" and similar expressions. Found throughout this presentation, they include (but are not limited to) statements on our future business development, economic performance and shareholder remuneration policy. However, a number of risks, uncertainties and other important factors may cause actual developments and results to differ materially from our expectations. The following important factors, in addition to others discussed elsewhere in this presentation, could affect our future results and could cause materially different outcomes from those anticipated in forward-looking statements: (1) general economic or industry conditions of areas where we have significant operations or investments (such as a worse economic environment; higher volatility in the capital markets; inflation or deflation; changes in demographics, consumer spending, investment or saving habits; and the effects of the COVID-19 pandemic in the global economy); (2) exposure to various market risks (particularly interest rate risk, foreign exchange rate risk, equity price risk and risks associated with the replacement of benchmark indices); (3) potential losses from early repayments on our loan and investment portfolio, declines in value of collateral securing our loan portfolio, and counterparty risk; (4) political stability in Spain, the United Kingdom, other European countries, Latin America and the US (5) changes in legislation, regulations, taxes, including regulatory capital and liquidity requirements, especially in view of the UK exit of the European Union and increased regulation in response to financial crisis; (6) our ability to integrate successfully our acquisitions and related challenges that result from the inherent diversion of management's focus and resources from other strategic opportunities and operational matters; and (7) changes in our access to liquidity and funding on acceptable terms, in particular if resulting from credit spreads shifts or downgrade in credit ratings for the entire group or significant subsidiaries.

Important information

Numerous factors could affect our future results and could cause those results deviating from those anticipated in the forward-looking statements. Other unknown or unpredictable factors could cause actual results to differ materially from those in the forward-looking statements.

Forward-looking statements speak only as of the date of this presentation and are informed by the knowledge, information and views available on such date. Santander is not required to update or revise any forward-looking statements, regardless of new information, future events or otherwise.

No offer

The information contained in this presentation is subject to, and must be read in conjunction with, all other publicly available information, including, where relevant any fuller disclosure document published by Santander. Any person at any time acquiring securities must do so only on the basis of such person's own judgment as to the merits or the suitability of the securities for its purpose and only on such information as is contained in such public information having taken all such professional or other advice as it considers necessary or appropriate in the circumstances and not in reliance on the information contained in this presentation. No investment activity should be undertaken on the basis of the information contained in this presentation. In making this presentation available Santander gives no advice and makes no recommendation to buy, sell or otherwise deal in shares in Santander or in any other securities or investments whatsoever.

Neither this presentation nor any of the information contained therein constitutes an offer to sell or the solicitation of an offer to buy any securities. No offering of securities shall be made in the United States except pursuant to registration under the U.S. Securities Act of 1933, as amended, or an exemption therefrom. Nothing contained in this presentation is intended to constitute an invitation or inducement to engage in investment activity for the purposes of the prohibition on financial promotion in the U.K. Financial Services and Markets Act 2000.

Historical performance is not indicative of future results

Statements about historical performance or accretion must not be construed to indicate that future performance, share price or future (including earnings per share) in any future period will necessarily match or exceed those of any prior period. Nothing in this presentation should be taken a profit forecast.

- Frontloading of issuances in the first half of the year, having issued EUR 22 billion, particularly focused on TLAC eligible issuances. Further EUR 3 bn issued in Q4 (mainly subordinated debt).
- Countries were able to meet their wholesale funding needs through the issuances in the year and access to central bank facilities.
- Liquidity position remains solid, with LCR above minimum requirements and ample liquidity buffers in all of our units.

Banco Santander S.A.'s 2021 funding plan contemplates the following:

- The Financial Plan is focused on covering TLAC/MREL requirements, with no secured issuances, to:
 - continue building up TLAC/MREL buffers.
 - pre-finance senior non-preferred / senior preferred transactions which lose TLAC eligibility due to entering in the <1 year window.
 - cover the increase in estimated RWAs which are the base of both requirements.

Note: Issuance plan subject to, amongst other considerations, market conditions and regulatory requirements. Other secured issuances (for example ABS, RMBS, etc.) are not considered in the table above

(1) Two hybrid issuances in Q4 2020 totalling EUR 2.3 billion. Issuance of additional hybrid securities will depend on RWA growth, to continue fulfilling the AT1 and T2 buffers (1.5% and 2% respectively).

Regulatory changes in Q1 and increased capital levels, increased the Group's CET1 management buffer to nearly 350 bps

TLAC RATIO (% LE)	8.0%	8.7%	10.1%	10.4%

- TLAC ratio at 31-Dec-20 increased 46 bps in the quarter to 23.8%¹ (compared with the fully-loaded TLAC requirement of 21.52% and the end 2020 requirement of 16%) mainly due to lower deductions
- Between September and December, TLAC before deductions increased by EUR 242 million, due to the Tier 2 issuances carried out (EUR 2,240 million), partially offset by the fall in CET1 and the impact of the USD's depreciation (-EUR 600 million)
- Regarding deductions, they are lower due to greater surpluses in other resolution groups as a result of dividend distribution limits

Group CET1 grows 36 bps QoQ, exceeding our 11%-12% target

Santander Responsible Banking goals

We are building a more Responsible Bank aligned with our commitments

*Note: 2020 Data is provisional monitoring data not audited.

(1) According to relevant external indexes in each country (Great Place to Work, Top Employer, Merco, etc.)

(2) Senior positions represent 1% of total workforce

(3) Calculation of equal pay gap compares employees of the same job, level and function

(4) People (unbanked, underbanked or financially vulnerable), who are given access to the financial system, receive tailored finance and increase their knowledge and resilience through financial education

(5) Includes Santander overall contribution to green finance: project finance, syndicated loans, green bonds, capital finance, export finance, advisory, structuring and other products to help our clients in the transition to a low carbon economy. Commitment from 2019 to 2030 is EUR 220 bn

(6) In those countries where it is possible to certify renewable sourced electricity for the properties occupied by the Group

(7) People supported through Santander Universities initiative (students who will receive a Santander scholarship, will achieve an internship in an SME or participate in entrepreneurship programmes supported by the bank)

(8) People helped through our community investment programmes (excluded Santander Universities and financial education initiatives)

Glossary - Definitions

PROFITABILITY AND EFFICIENCY

- ✓ **RoTE:** Return on tangible capital: Group attributable profit / average of: net equity (excluding minority interests) – intangible assets (including goodwill)
- ✓ **RoRWA:** Return on risk-weighted assets: consolidated profit / average risk-weighted assets
- ✓ **Efficiency:** Operating expenses / gross income. Operating expenses defined as general administrative expenses + amortisations

CREDIT RISK

- ✓ **NPL ratio:** Non-performing loans and customer advances, customer guarantees and contingent liabilities / total risk. Total risk is defined as: normal and non-performing balances of customer loans and advances, customer guarantees and contingent liabilities
- ✓ **NPL coverage ratio:** Provisions to cover losses due to impairment of customer loans and advances, customer guarantees and contingent liabilities / non-performing balances of customer loans and advances, customer guarantees and contingent liabilities
- ✓ **Cost of credit:** Provisions to cover losses due to impairment of loans in the last 12 months / average customer loans and advances of the last 12 months

CAPITALISATION

- ✓ **Tangible net asset value per share – TNAVps:** Tangible stockholders' equity / number of shares (excluding treasury shares). Tangible stockholders' equity calculated as shareholders equity + accumulated other comprehensive income - intangible assets

Notes: 1) The averages for the RoTE and RoRWA denominators are calculated on the basis of 13 months from December to December.

2) For periods of less than a year, and in the event of non-recurring results existing, the profit used to calculate the RoTE is the annualised underlying attributable profit (excluding non-recurring results), to which are added non-recurring results without annualising them.

3) For periods of less than a year, and in the event of non-recurring results existing, the profit used to calculate the RoRWA is the annualised underlying consolidated result (excluding non-recurring results), to which is added non-recurring results without annualising them.

4) The risk-weighted assets included in the RoRWA denominator are calculated in accordance with the criteria defined by the Capital Requirements Regulation (CRR).
