Important information

Non-IFRS and alternative performance measures

This presentation contains, in addition to the financial information prepared in accordance with International Financial Reporting Standards ("IFRS") and derived from our financial statements, alternative performance measures ("APMs") as defined in the Guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority (ESMA) on 5 October 2015 (ESMA/2015/1415en) and other non-IFRS measures ("Non-IFRS Measures"). These financial measures that qualify as APMs and non-IFRS measures have been calculated with information from Santander Group; however those financial measures are not defined or detailed in the applicable financial reporting framework nor have been audited or reviewed by our auditors. We use these APMs and non-IFRS measures when planning, monitoring and evaluating our performance. We consider these APMs and non-IFRS measures to be useful metrics for our management and investors to compare operating performance between accounting periods, as these measures exclude items outside the ordinary course performance of our business, which are grouped in the "management adjustment" line and are further detailed in Section 3.2 of the Economic and Financial Review in our Directors' Report included in our Annual Report on Form 20-F for the year ended 31 December 2021. Nonetheless, these APMs and non-IFRS measures should be considered supplemental information to, and are not meant to substitute IFRS measures. Furthermore, companies in our industry and others may calculate or use APMs and non-IFRS measures differently, thus making them less useful for comparison purposes. For further details on APMs and Non-IFRS Measures, including its definition or a reconciliation between any applicable management indicators and the financial data presented in the consolidated financial statements prepared under IFRS, please see the 2021 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission (the "SEC") on 1 March 2022, as updated by the Form 6-K filed with the SEC on 8 April 2022 in order to reflect our new organizational and reporting structure, as well as the section "Alternative performance measures" of the annex to the Banco Santander, S.A. ("Santander") Q2 2022 Financial Report, published as Inside Information on 28 July 2022. These documents are available on Santander's website (www.santander.com). Underlying measures, which are included in this presentation, are non-IFRS measures.

The businesses included in each of our geographic segments and the accounting principles under which their results are presented here may differ from the included businesses and local applicable accounting principles of our public subsidiaries in such geographies. Accordingly, the results of operations and trends shown for our geographic segments may differ materially from those of such subsidiaries.

Forward-looking statements

Santander advises that this presentation contains "forward-looking statements" as per the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements may be identified by words like "expect", "project", "anticipate", "should", "intend", "probability", "risk", "VaR", "RoRAC", "RoRWA", "TNAV", "target", "goal", "objective", "estimate", "future" and similar expressions. Found throughout this presentation, they include (but are not limited to) statements on our future business development, economic performance and shareholder remuneration policy. However, a number of risks, uncertainties and other important factors may cause actual developments and results to differ materially from our expectations. The following important factors, in addition to others discussed elsewhere in this presentation, could affect our future results and could cause materially different outcomes from those anticipated in forward-looking statements: (1) general economic or industry conditions of areas where we have significant operations or investments (such as a worse economic environment; higher volatility in the capital markets; inflation or deflation; changes in demographics, consumer spending, investment or saving habits; and the effects of the war in Ukraine or the COVID-19 pandemic in the global economy); (2) exposure to various market risks (particularly interest rate risk, foreign exchange rate risk, equity price risk and risks associated with the replacement of benchmark indices); (3) potential losses from early repayments on our loan and investment portfolio, declines in value of collateral securing our loan portfolio, and counterparty risk; (4) political stability in Spain, the United Kingdom, other European countries, Latin America and the US (5) changes in legislation, regulations, taxes, including regulatory capital and liquidity requirements, especially in view of the UK exit of the European Union and increased regulation in response to financial crises; (6) our ability to integrate successfully our acquisitions and related challenges that result from the inherent diversion of management's focus and resources from other strategic opportunities and operational matters; and (7) changes in our access to liquidity and funding on acceptable terms, in particular if resulting from credit spreads shifts or downgrade in credit ratings for the entire Group or significant subsidiaries.

Important information

Numerous factors could affect our future results and could cause those results deviating from those anticipated in the forward-looking statements. Other unknown or unpredictable factors could cause actual results to differ materially from those in the forward-looking statements.

Forward-looking statements speak only as of the date of this presentation and are informed by the knowledge, information and views available on such date. Santander is not required to update or revise any forward-looking statements, regardless of new information, future events or otherwise.

Revenue up boosted by NII and fees, partly offset by lower trading gains and other income

- In Q2, total revenue increased 4% excluding the SRF & IPS contributions
- NII and net fee income (97% of total income) increased QoQ and YoY supported by volumes, greater interest rates and activity
- In Q2, lower trading gains due to FX hedge and other income affected by the SRF & IPS contributions and lower US lease income

Sustained NII growth with improvements in both volumes and NIM

- **Spain:** pressure on yields and smaller ALCO portfolio
- **UK:** higher interest rates and volumes
- **Portugal:** pressure on yields and smaller ALCO portfolio
- **Poland:** strong interest rate hikes and activity across segments

- Higher volumes and interest rates in both countries
- **USA:** NIM pressured by consumer loan pricing competition
- **Mexico:** strong loan growth in individuals and corporates

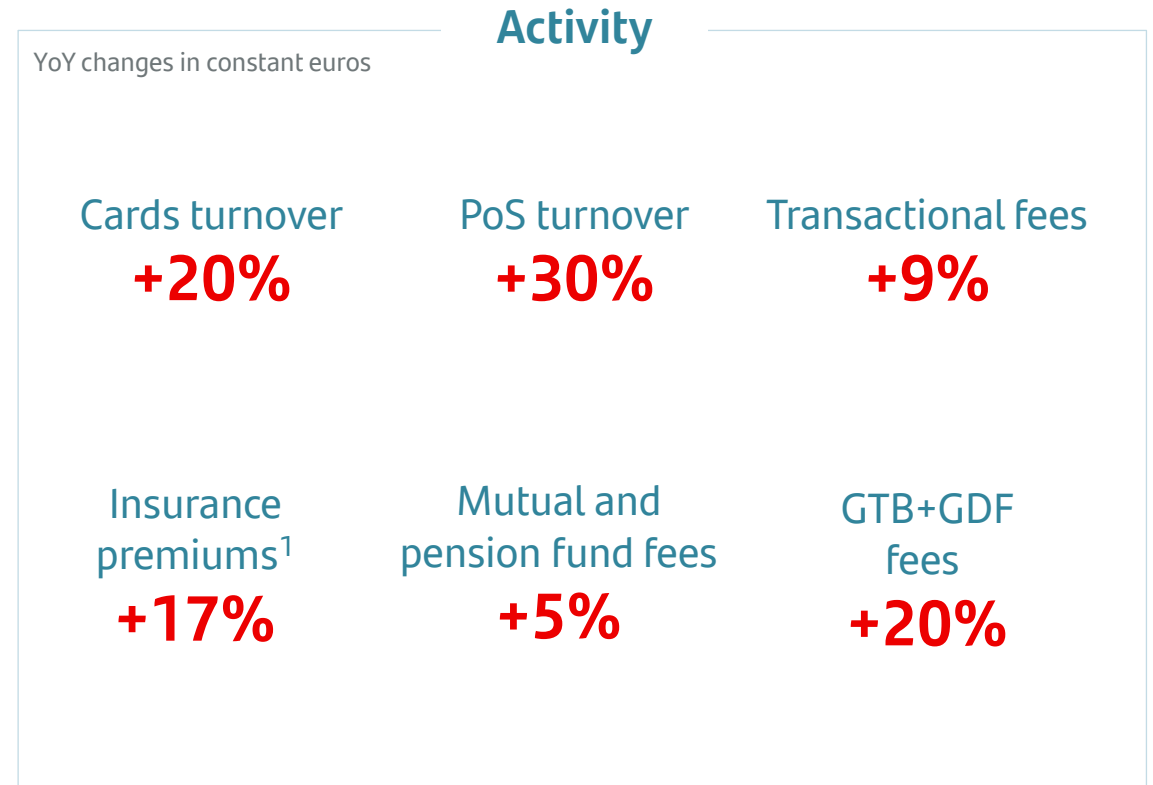

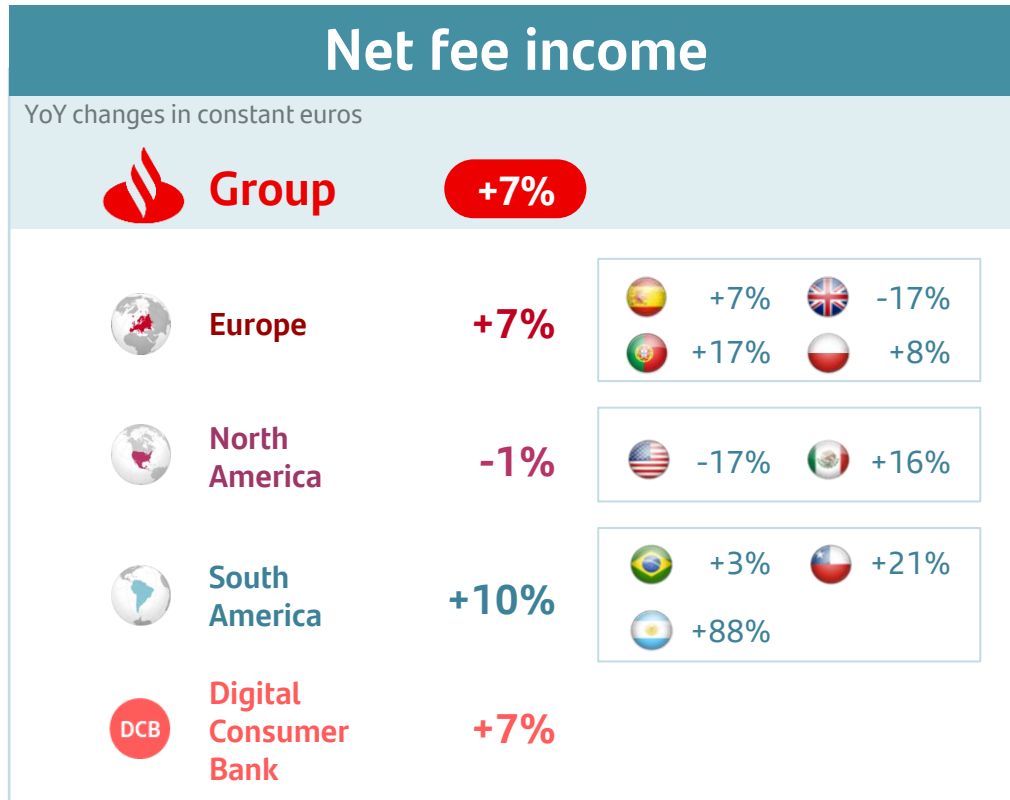

- **Brazil:** margins backed by volumes growth and credit mix, partly offset by negative sensitivity to rate hikes
- **Chile:** increased UF and loan portfolio, and despite the negative sensitivity of the balance sheet
- **Argentina:** higher volumes and interest rates (+1,100bps)

- Higher new business rates and change of mix offset by increasing funding costs

Net fee income backed by customer activity and growth in higher value-added products

- **Europe** grew strongly mainly driven by CIB, higher card transactionality and insurance. The UK affected by CIB transfer (flattish like-for-like)
- **North America:** strong growth in Mexico (insurance, cards and mutual funds). In the US, Bluestem impact and lower overdraft fees
- Growth in **South America** boosted by transactional businesses, payments and insurance
- Fees at **DCB** increased on the back of new lending volumes

We continue to make structural changes to our operating model, driving sustainable efficiencies and mitigating the effects of overall higher inflation

Appendix

Final remarks

Revenue

- In an uncertain environment, we expect **revenue to improve**:
 - **NII should increase in the coming quarters**, benefitting from interest rate hikes and expected activity levels, accelerating in 2023
 - **Fee income supported by commercial activity and global business** growth (SCIB, WM&I and Payments)

Costs

- **We will continue to manage costs below inflation** while enhancing the customer experience by evolving our operating model ...
- ... which should allow us to continue **improving productivity and efficiency**

Credit quality

- **Credit quality improved YTD** and **no deterioration is expected**, supported by our loan portfolio structure, high household savings rates and low unemployment rates across our footprint
- 6 month annualized CoR (0.91%) allows us to be **confident in achieving our goal for the year**

Capital

- **Fully committed to maintaining CET1 at 12% in each quarter** both through continued profit growth and disciplined capital allocation

We expect revenue growth to offset cost inflation pressures and a potential CoR increase and achieve Group Targets

Highlights

- **Greater customer base** and enhanced customer experience through tailored products and services
- **Overall volumes growth QoQ and YoY**, boosted by positive performance across segments in both countries
- **Profitability remained high** driven by outstanding results in Mexico and high profit in the US
- **In Q2**, lower lease income and higher costs (partly due to perimeter), while NII and fees showed signs of recovery

Banco Santander, S.A.'s 2022 funding plan contemplates the following:

- ▶ The Financial Plan is mainly focused on covering TLAC/MREL requirements to:
 - ▶ continue building up TLAC/MREL buffers.
 - ▶ pre-finance senior non-preferred / senior preferred transactions which lose TLAC/MREL eligibility due to entering in the <1 year window.
 - ▶ cover the increase in estimated RWAs which are the base of both requirements.

Note: Issuance plan subject to, amongst other considerations, market conditions and regulatory requirements. Other secured issuances (for example ABS, RMBS, etc.) are not considered in the table above.

(1) Includes €1.8bn of sub debt issued in Q4'21 as pre-funding for 2022.

(2) Includes €2.1bn of senior non-preferred issued Q4'21 as pre-funding for 2022.

Santander's capital levels, both phased-in and fully loaded, exceed minimum regulatory requirements

Glossary - Definitions

PROFITABILITY AND EFFICIENCY

- ✓ **RoTE:** Return on tangible capital: Group attributable profit / average of: net equity (excluding minority interests) – intangible assets (including goodwill)
- ✓ **RoRWA:** Return on risk-weighted assets: consolidated profit / average risk-weighted assets
- ✓ **Efficiency:** Operating expenses / total income. Operating expenses defined as general administrative expenses + amortisations

VOLUMES

- ✓ **Loans:** Gross loans and advances to customers (excl. reverse repos)
- ✓ **Customer funds:** Customer deposits excluding repos + marketed mutual funds

CREDIT RISK

- ✓ **NPL ratio:** Credit impaired loans and advances to customers, customer guarantees and customer commitments granted / Total risk. Total risk is defined as: Total loans and advances and guarantees to customers (including credit impaired assets) + contingent liabilities granted that are credit impaired
- ✓ **Total coverage ratio:** Total allowances to cover impairment losses on loans and advances to customers, customer guarantees and customer commitments granted / Credit impaired loans and advances to customers, customer guarantees and customer commitments granted
- ✓ **Cost of credit:** Provisions to cover losses due to impairment of loans in the last 12 months / average customer loans and advances of the last 12 months

CAPITALIZATION

- ✓ **Tangible net asset value per share – TNAVps:** Tangible stockholders' equity / number of shares (excluding treasury shares). Tangible stockholders' equity calculated as shareholders equity + accumulated other comprehensive income - intangible assets

DIGITAL

- ✓ **Digital customers:** every physical or legal person, that, being part of a commercial bank, has logged in its personal area of internet banking or mobile phone or both in the last 30 days
- ✓ **Transactions monetary & voluntary:** customer interaction through mobile or internet banking which resulted in a change of balance. ATM transactions are not included
- ✓ **Digital sales:** percentage of new contracts executed through digital channels during the period. Digital sales as % of total sales

Notes: The averages for the RoTE and RoRWA denominators are calculated using 7 months from December to June.

For periods less than one year, and if there are results in the net capital gains and provisions line, the profit used to calculate RoE and RoTE is the annualized underlying attributable profit to which said results are added without annualizing.

For periods less than one year, and if there are results in the net capital gains and provisions line, the profit used to calculate RoA and RoRWA is the annualized underlying consolidated profit, to which said results are added without annualizing.

The risk weighted assets included in the denominator of the RoRWA metric are calculated in line with the criteria laid out in the CRR (Capital Requirements Regulation).
