## Non-IFRS and alternative performance measures

This presentation contains financial information prepared according to International Financial Reporting Standards (IFRS) and taken from our consolidated financial statements, as well as alternative performance measures (APMs) as defined in the Guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority (ESMA) on 5 October 2015, and other non-IFRS measures. The APMs and non-IFRS measures were calculated with information from Grupo Santander; however, they are neither defined or detailed in the applicable financial reporting framework nor audited or reviewed by our auditors. We use these APMs and non-IFRS measures when planning, monitoring and evaluating our performance. We consider them to be useful metrics for our management and investors to compare operating performance between periods. APMs we use are presented unless otherwise specified on a constant FX basis, which is computed by adjusting comparative period reported data for the effects of foreign currency translation differences, which distort period-on-period comparisons. Nonetheless, the APMs and non-IFRS measures are supplemental information; their purpose is not to substitute IFRS measures. Furthermore, companies in our industry and others may calculate or use APMs and non-IFRS measures differently, thus making them less useful for comparison purposes. APMs using ESG labels have not been calculated in accordance with the Taxonomy Regulation or with the indicators for principal adverse impact in SFDR. For further details on APMs and Non-IFRS Measures, including their definition or a reconciliation between any applicable management indicators and the financial data presented in the consolidated financial statements prepared under IFRS, please see the 2022 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission (the SEC) on 1 March 2023 (<https://www.santander.com/content/dam/santander-com/en/documentos/informacion-sobre-resultados-semestrales-y-anales-suministrada-a-la-sec/2023/sec-2022-annual-20-f-2022-en.pdf>), as well as the section "Alternative performance measures" of Banco Santander, S.A. (Santander) Q4 2023 Financial Report, published on 31 January 2024 (<https://www.santander.com/en/shareholders-and-investors/financial-and-economic-information#quarterly-results>). Underlying measures, which are included in this document, are non-IFRS measures.

The businesses included in each of our geographic segments and the accounting principles under which their results are presented here may differ from the businesses included and local applicable accounting principles of our public subsidiaries in such geographies. Accordingly, the results of operations and trends shown for our geographic segments may differ materially from those of such subsidiaries.

## Non-financial information

This presentation contains, in addition to financial information, non-financial information (NFI), including environmental, social and governance-related metrics, statements, goals, commitments and opinions.

NFI is included to comply with Spanish Act 11/2018 on non-financial information and diversity and to provide a broader view of our impact. NFI is not audited nor reviewed by an external auditor. NFI is prepared following various external and internal frameworks, reporting guidelines and measurement, collection and verification methods and practices, which are materially different from those applicable to financial information and are in many cases emerging and evolving. NFI is based on various materiality thresholds, estimates, assumptions, judgments and underlying data derived internally and from third parties. NFI is thus subject to significant measurement uncertainties, may not be comparable to NFI of other companies or over time or across periods and its inclusion is not meant to imply that the information is fit for any particular purpose or that it is material to us under mandatory reporting standards. NFI is for informational purposes only and without any liability being accepted in connection with it except where such liability cannot be limited under overriding provisions of applicable law.

Santander is not required to update or revise any forward-looking statements, regardless of new information, future events or otherwise, except as required by applicable law. Santander does not accept any liability in connection with forward-looking statements except where such liability cannot be limited under overriding provisions of applicable law.

# Santander's capital levels, both phased-in and fully loaded, exceed minimum regulatory requirements

- The minimum CET1 to be maintained by the Group is 9.26%
- As of Dec-23, the distance to the MDA is 269bps<sup>3</sup> and the CET1 management buffer is 304bps

- AT1 and T2 ratios are planned to be close to 1.5% and 2.4% of RWAs respectively

\* The phased-in ratio includes the transitory treatment of IFRS 9, calculated in accordance with article 473 bis of the Capital Requirements Regulation (CRR2) and subsequent modifications introduced by Regulation 2020/873 of the European Union. Total phased-in capital ratios include the transitory treatment according to chapter 4, title 1, part 10 of the CRR2.

\*\* Fully-loaded CRR and fully-loaded IFRS 9.

(1) Estimated countercyclical buffer as of Dec-23.

(2) According to a recent resolution from Banco de España, our D-SIB buffer will increase from 1% to 1.25% from 1 January 2024 following a change in methodology. Institutions must hold capital at the consolidated level for the higher of the G-SIB and D-SIB requirements. As at year end 2023, Santander applies a 1% CET1 surcharge, globally (G-SIB) and locally (D-SIB), as they are both set at 1%. Additionally, the ECB revised Banco Santander, S.A.'s P2R requirement establishing a minimum of 1.74% applicable from 1 January 2024.

(3) MDA trigger = 3.04% - 0.35% = 2.69% (35bps of AT1 shortfall is covered with CET1).
