

# Indicadores para identificar Entidades Globalmente Sistémicas

Información referida a 31 de diciembre 2022

# 1. Introducción

## *Identificación de Entidades Globalmente Sistémicas*

- Santander es una de las 30 entidades<sup>1</sup> designadas en 2022 por el Comité de Basilea conjuntamente con el Financial Stability Board como entidad sistémica de importancia global.
  
- Esta designación obliga a Santander a cumplir requerimientos adicionales consistentes principalmente en:
  - colchón de capital (actualmente el 1%)
  - requerimientos de TLAC
  - exigencia de publicar información relevante con mayor frecuencia
  - mayores exigencias regulatorias para los órganos de control interno
  - supervisión especial
  - exigencia de informes especiales a presentar a sus supervisores.

(1) Se puede consultar la lista de entidades sistémicas de importancia global en: <https://www.fsb.org/wp-content/uploads/P211122.pdf>

## 2. Realización del cálculo

### *Identificación de Entidades Globalmente Sistémicas*

- La información se solicita anualmente a los bancos con exposición de apalancamiento superior a los 200.000 millones de euros, con la obligación de publicarla antes del 30 de abril del año siguiente.
- Con esta información se elabora un indicador global que determinará el tamaño del colchón de capital que se le exigirá en función de unos tramos definidos por los reguladores. Si supera 130, la entidad será designada entidad sistémica de importancia global.
- La medición empleada para la designación se basa en cinco categorías:
  - Tamaño
  - Actividad interjurisdiccional
  - Interconexión con otras entidades financieras
  - Sustituibilidad
  - Complejidad.
- En noviembre 2022 el Financial Stability Board publicó la lista de entidades sistémicas de importancia global donde Santander obtuvo una puntuación de 174.
