Towards a more sustainable world
Important Information
Non-IFRS and alternative performance measures

This document contains financial information prepared according to International Financial Reporting Standards (IFRS) and taken from our consolidated financial statements, as well as alternative performance measures (APMs) as defined in the Guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority (ESMA) on 5 October 2015, and other non-IFRS measures. The APMs and non-IFRS measures were calculated with information from Grupo Santander; however, they are neither defined or detailed in the applicable financial reporting framework nor audited or reviewed by our auditors. We use these APMs and non-IFRS measures when planning, monitoring and evaluating our performance. We consider them to be useful metrics for our management and investors to compare operating performance between periods. APMs are used unless otherwise specified on a constant FX basis, which is computed by adjusting comparative period reported data for the effects of foreign currency translation differences, which distort period-on-period comparisons. Nonetheless, the APMs and non-IFRS measures are supplemental information; their purpose is not to substitute IFRS measures. Furthermore, companies in our industry and others may calculate or use APMs and non-IFRS measures differently, thus making them less useful for comparison purposes. APMs using ESG labels have not been calculated in accordance with the Taxonomy Regulation or with the indicators for principal adverse impact in SFDR. For further details on APMs and Non-IFRS Measures, including their definition or a reconciliation between any applicable management indicators and the financial data presented in the consolidated financial statements prepared under IFRS, please see the 2022 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission (the SEC) on 1 March 2023 (https://www.santander.com/content/dam/santander-com/en/documentos/informacion-sobre-resultados-semestrales-y-annuals-suministrada-a-la-sec/2023/sec-2022-anual-20-F-2022-en.pdf), as well as the section "Alternative performance measures" of Banco Santander, S.A. (Santander) Q3 2023 Financial Report, published on 25 October 2023 (https://www.santander.com/en/shareholders-and-investors/financial-and-economic-information#quarterly-results). Underlying measures, which are included in this document, are non-IFRS measures.

The businesses included in each of our geographic segments and the accounting principles under which their results are presented here may differ from the businesses included and local applicable accounting principles of our public subsidiaries in such geographic segments. Accordingly, the results of operations and trends shown for our geographic segments may differ materially from those of such subsidiaries.

Non-financial information

This document contains, in addition to financial information, non-financial information (NFI), including environmental, social and governance-related metrics, statements, goals, commitments and opinions.

NFI is not audited or reviewed by an external auditor. NFI is prepared following various external and internal frameworks, reporting guidelines and measurement and verification methods and practices, which are materially different from those applicable to financial information and are in many cases emerging and evolving. NFI is based on various materiality thresholds, estimates, assumptions, judgments and underlying data derived internally and from third parties. NFI is subject to significant measurement uncertainties, may not be comparable to NFI of other companies or over time or across periods and its inclusion is not meant to imply that the information is fit for any particular purpose or that it is material to us under mandatory reporting standards. NFI is for informational purposes only and without any liability being accepted in connection with it except where such liability cannot be limited under overriding provisions of applicable law.

Forward-looking statements

Santander hereby warns that this document contains “forward-looking statements” as per the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Such statements can be understood through words and expressions like “expect”, “project”, “anticipate”, “should”, “intend”, “probability”, “risk”, “Van”, “RoRAC”, “RoRWA”, “TNAV”, “target”, “goal”, “objective”, “estimate”, “future”, “commitment”, “commit”, “focus”, “pledge” and similar expressions. They include (but are not limited to) statements on future business development, shareholder remuneration policy and NFI. While these forward-looking statements represent our judgement and future expectations concerning our business developments and results may differ materially from those anticipated, expected, projected or assumed in forward-looking statements.

In particular, forward looking statements are based on current expectations and future estimates about Santander’s and third-parties’ operations and businesses and address matters that are uncertain to varying degrees and may change, including, but not limited to: (a) expectations, targets, objectives, strategies and goals relating to environmental, social, safety and governance performance, including expectations regarding future execution of Santander’s and third-parties’ (including governments and other public actors) energy and climate strategies, and the underlying assumptions and estimated impacts on Santander’s and third-parties’ businesses related thereto; (b) Santander’s and third-parties’ approach, plans and expectations in relation to carbon use and targeted reductions of emissions, which may be affected by conflicting interests as energy security; (c) changes in operations or investments under existing or future environmental laws and regulations; (d) changes in rules and regulations, regulatory requirements and internal policies, including those related to climate-related initiatives; (e) our own decisions and actions including those affecting or changing our practices, operations, priorities, strategies, policies or procedures; and (f) the uncertainty over the scope of actions that may be required by us, governments and others to achieve goals relating to climate, environmental and social matters, as well as the evolving nature of underlying science and industry and governmental standards and regulations.

In addition, the important factors described in this document and other risk factors, uncertainties or contingencies detailed in our most recent Form 20-F and subsequent 6-Ks filed with, or furnished to, the SEC, as well as other unknown or unpredictable factors, could affect our future development and results and could lead to outcomes materially different from what our forward-looking statements anticipate, expect, project or assume.

Forward-looking statements are therefore aspirational, should be regarded as indicative, preliminary and for illustrative purposes only, speak only as of the date of this document, are informed by the knowledge, information and views available on such date and are subject to change without notice. Santander is not required to update or revise any forward-looking statements, regardless of new information, future events or otherwise, except as required by applicable law. Santander does not accept any liability in connection with forward-looking statements except where such liability cannot be limited under overriding provisions of applicable law.

Not a securities offer

This document and the information it contains does not constitute an offer to sell nor the solicitation of an offer to buy any securities.

Past performance does not indicate future outcomes

Statements about historical performance or growth rates must not be construed as suggesting that future performance, share price or results (including earnings per share) will necessarily be the same or higher than in a previous period. Nothing in this performance should be taken as a profit and loss forecast.

Third Party Information

In this document, Santander relies on and refers to certain information and statistics obtained from publicly-available information and third-party sources, which it believes to be reliable. Neither Santander nor its directors, officers and employees have independently verified the accuracy or completeness of any such publicly-available and third-party information, make any representation or warranty as to the quality, fitness for a particular purpose, non-infringement, accuracy or completeness of such information or undertake any obligation to update such information after the date of this report. In no event shall Santander be liable for any use by any party of, for any decision made or action taken by any party in reliance upon, or for inaccuracies or errors in, or omission from, such publicly-available and third-party information contained herein. Any sources of publicly-available information and third-party information referred or contained herein retain all rights with respect to such information and use of such information herein shall not be deemed to grant a license to any third party.

What makes us different

**Financial Inclusion**
Awarded Best Bank for Financial Inclusion in 2022 by Euromoney

**Decarbonization**
Net-zero decarbonization targets as founding members of the NZBA

**Green Finance**
#1 worldwide Bank in the financing Renewable Energy¹

**Governance**
Best practices and robust board composition

---

¹ Renewable energy finance ranking based on the league tables provided by Infralogic as of January 2023 for the last 10 years as of FY2022.
As a responsible bank, we place **sustainability at the centre of our core activities** to deliver on our purpose of helping people & business prosper.

**Our vision**

is to play a major role in the transition to a low carbon economy, supporting inclusive & sustainable growth and taking into account social and environmental risks & opportunities.

**Our strategy**

focuses on delivering our Net zero ambition by 2050, while we continue helping customers transition to a low carbon economy, develop best in class sustainable propositions, and do things in a simple, personal and fair way.

**Our actions**

materialize the Group’s ESG strategy, as we continue progressing and delivering on our responsible banking commitments, to help tackle global challenges.
### Overarching goal: Focus on most material items

<table>
<thead>
<tr>
<th>Ambition</th>
<th>Goals</th>
<th>Priority action plans</th>
</tr>
</thead>
</table>
| Support the transition to a low carbon economy | Deliver our Net zero ambition by 2050                                | **Set targets** in our portfolios to align with pathways to net zero, while taking into consideration other environmental goals as Nature  
**Support customers in their transition, engaging** with them and developing a best-in-class **sustainable finance and investment** proposition |
| Promote inclusive growth                      | Support productive inclusion across our main stakeholders: employees, customers and communities | **Diverse and inclusive workplace** that fosters employee wellbeing  
**Support financial inclusion** of the most vulnerable customers, promoting access to banking products and services and offering financial education  
**Community support**, with focus on Education, Employability and Entrepreneurship |
| Strong governance and culture across the organization | Incorporate ESG in behaviors, policies, processes and governance throughout the Group | **Consistent tone from the top** to drive cultural change and deliver on our commitments (climate, diversity, training...)  
**Integrate ESG** into strategic processes, Risk Management & rest of relevant functions and build capabilities |
Our journey over the past years highlights Santander’s ongoing commitment to fight climate change and contribute to a more sustainable future.

- Signed the Equator Principles
- Approved 1st sectorial policies
- Started managing our environmental footprint
- TCFD Endorsement
- Top Risk exercise began covering Climate Risk
- Creation of TCFD
- Responsible Banking Board
- Creation of The Responsible Banking Board Committee & Responsible Banking corporate team & network
- Creation of ESG Wealth Management team, ESG Risk team
- Responsible Banking Commitments under each sustainability theme
- Joined UN Collective Commitment to Climate Action
- Global Sustainable Bonds Framework creation
- Founding members of the Principles for Responsible Banking
- SCIB global ESG Solutions team creation
- Became carbon neutral in our own operations
- Pledged to reduce our carbon footprint focusing on the most material sectors to climate risk
- Creation of a dedicated ESG within Investor relations
- Set an ambition to be net zero by 2050 and became Founding Member of the Net Zero Banking Alliance
- Development of internal Taxonomy – Sustainable Finance Classification System (SFCS)
- Creation of an ESG dedicated Investor Relations team
- Creation of a Global Green Finance Team and Risk team reporting directly to the CRO
- Publication of our Green, Social and Sustainability Funding Global Framework
- We continued to embed climate management in business as usual across SCIB units and Risks

ESG strategy | Commitment from our Top Management

By delivering on our purpose to help people and businesses prosper, we grow as a business and continue to help society address its challenges.

Ana Botín  
Executive Chairman

“As a responsible bank, our approach to ESG issues is central to our strategy”

“At Santander, we’ve always known we have a responsibility to support society and I have no doubt that we’ll continue to fulfil it. We are determined to help businesses and communities across the world build back better and use this as an opportunity to address global challenges such as inequality and climate change”

Héctor Grisi Checa  
CEO

“We believe in the importance of building a more responsible bank that responds to all our stakeholder’s demands on ESG sustainability issues”

“For many years, Santander has been committed to the environment and supporting sustainable and inclusive growth, for which we have set clear goals, supporting our clients in their transition to a low-carbon economy”
**ESG strategy | Main challenges**

Our group strategy focuses on supporting global initiatives to tackle climate change and promote sustainable growth that is accessible for everyone.

Decarbonization ambition
Decarbonization Targets | Our net zero journey

In order to be aligned with the Paris Agreement and with the aim of limiting global temperature increase to 1.5°C, we have committed to be net zero in carbon emissions by 2050 also as part of the NZBA.

- **Net zero ambition**
  - Founding member of the NZBA, joined NZAMi & 1st decarbonization targets (Thermal Coal, Power Generation and SAM)

- **Being carbon neutral in all our operations**
  - 2020
  - Cut unnecessary single-use plastics
  - 2021
  - Sustainable Finance Classification System published and development of An internal transition finance criteria

- **Decarbonization targets for oil and gas, steel and aviation**
  - 2024
  - Set up additional decarbonization targets as per NZBA

- **Set 100% of energy from renewable sources in all Santander buildings**
  - 2025
  - Use 100% of energy from renewable sources in all Santander buildings

- **SAM target to halve net emissions for 50% of in-scope AuM**
  - 2030
  - Cutting our exposure to thermal coal mining everywhere

- **Alignment of Santander’s power generation, Energy (Oil & Gas), Steel, and Aviation portfolios, with the Paris Agreement**
  - 2050
  - Net Zero

---

1. In countries where we can verify electricity from renewable sources at Banco Santander properties.
2. Assets in scope are 54% of SAM total assets that currently have a defined Net Zero methodology and for c.50% of them we have carbon metrics available today. This objective might be reviewed upwards depending on data availability at least every five years. The target includes halving emissions in intensity terms for 50% of in-scope AUM.
As one of the world’s largest banks, we have a clear role to play in financing the transition to a greener economy. We have met the goal of being carbon neutral in our own operations in 2020, but we aim to continue progressing towards our net zero ambition.

- **Align our portfolios to the Paris Agreement while delivering on our decarbonization targets and setting new ones.**

- **We will help more customers – people and businesses go green by **offering a green value proposition** to help them make sustainable choices.**

- **We will continue to reduce the impact we have on the environment created by Santander’s day to day operations.**

Additional targets on other material sectors published last year in the following sectors: energy, aviation and steel, you can check the full details in our Climate Finance Report.

Further details on the group’s Climate strategy [here](#).
Decarbonization Targets | Sectorial policies

Our Environmental, Social and Climate Change (ESCC) risk management policy sets out standards for investing in, and providing financial products and services to, companies and customers engaging in sensitive activities expressly prohibiting funding to (among others):

### Oil & Gas

- New oil upstream clients, except for transactions for the specific financing for renewable energy
- Project-related financing to Oil upstream greenfield projects. Any projects, or expansion of existing facilities, north of the Arctic Circle
- Projects involved in the exploration, development, construction or expansion of oil & gas extraction tar sands, fracking or coal bed methane

### Mining & Metals

- Project-related financing for new, or the expansion of thermal coal mines
- Project-related financing for the construction or development of infrastructure projects whose expected revenues from coal mining related activities will be more than 30% of the project’s revenues in the first five years
- New clients that own thermal coal mining operations and projects worldwide, except for transactions for the specific financing for renewable energy

### Power Generation

- From 2030, any entities with more than 10% of revenues, on a consolidated basis, directly derived from coal fired power generation
- Project-related financing for new coal-fired power plants projects worldwide, or for the upgrade and/or expansion of existing coal-fired plants
- New clients with coal-fired power plants, except for transactions for the specific financing for renewable energy

### Soft Commodities

- Extraction of native tropical wood species not certified to FSC¹
- Palm oil processors that are not certified to RSPO²
- Developments in forested peatlands in High-Risk Geographies

Note: Policy updated on February 2022

1. FSC: Forest Stewardship Certification
2. RSPO: Round Table on Sustainable Palm Oil

Our ratio of financed fossil fuels to total financing (including lending, underwriting of corporate bonds, government bonds, and equity issuances) is one of the lowest among all reviewed banks.

Santander’s fossil fuels financing is more than 6 times smaller than the leading banks.

Source: The Banking on Climate Chaos: Fossil Fuel Finance Report 2023

Peers are banks whose size and market capitalization are comparable to Santander, including BBVA, BNP Paribas, Citi, HSBC, ING, Itaú, Scotia Bank and UniCredit.
In last year’s Climate Finance Report, we assessed the 2019 financed emissions of our power generation portfolio, including guarantees and other types of off-balance exposure to our customers that do not entail current funding. Because, according to the PCAF standard, such exposure should not be calculated if its attribution factor is “outstanding”, we were over-attributed with our corporate customers’ emissions. Therefore, the 2019 baseline emissions intensity has been restated from 0.23 to 0.21. The target and climate ambition remains for this sector.

**Use of sold products.**

We have decarbonization targets for five climate material sectors, according to the internal roadmap from our last year’s Climate Finance Report. The targets were presented to our key climate governance bodies and approved by our board of directors.

**In March 2021, Santander AM joined the global Net Zero Asset Managers (NZAM) initiative for net zero greenhouse gas emissions by 2050**

2030 interim target to reduce net emissions by half for 50% of AUM in-scope

**EUR 100 bn in Socially responsible investments AUMs by 2025**

Increase through fund reprofiling and new sustainable investment products and services

Creation of a global ESG strategy team to coordinate the efforts of our three businesses and strengthen SAM’s ESG dedicated team

### Poland strategy Committed to support the Coal phase-out

**Alignment with decarbonization targets**

- Poland’s energy mix is shifting away from coal to Renewable Energy Sources (RES)
- Santander Bank Polska (SBP) credit portfolio should be aligned with the coal-exit 2030 benchmark earlier than the deadline
- SCIB is the market leader in Green Finance with estimated market share exceeding 15%
- Government approved energy strategy plan (PEP2040) that assumes 17GW of new capacity in RES and gas by 2030
- It is estimated that the above plan will require between EUR 20 bn and EUR 32 bn CAPEX

**Helping clients to transition (transactions arranged and executed by SBP)**

- Direct financing of RES projects (last 12 months): SBP arranged financing of 500MW of wind and solar projects and we are committed to reach 1GW in H1 2022

**Supporting clients in transformation into green Energy and ESG:**

- First ever ESG-linked syndicated loan in Poland
- First Corporate green bond
- Green Eurobonds for the Republic of Poland
- The first sustainable–linked bonds
- The first ESG-linked bonds
- ECA-backed financing for RES project

**M&A transactions and debt advisory services for our clients in RES**

### Note

1. Assets in scope are assets with a defined Net Zero methodology, which currently amount to 54% of total AUM. For c.50% of those, SAM has carbon metrics available today. This objective might be reviewed upwards depending on data availability.
2. AUMs classified as Article 8 and 9 funds (SFDR) from SAM, plus third-party funds and other ESG products according to the EU taxonomy from Private Banking. We apply equivalent ESG criteria to SAM’s funds in Latin America.
Financing the green transition
Finance is a key enabler of the transition towards a low-carbon economy. We are contributing to a more sustainable economy by managing climate-related risks and opportunities, building a comprehensive sustainable and green finance proposition. We are currently working on:

- Raising and mobilizing EUR 120 bn in green finance by 2025 and EUR 220 bn by 2030
- Developing a green value proposition and ESG investment solutions for our clients
- Progress with ESG bonds issuance, EUR 3 bn since 2019
- Engaging in global initiatives like the Net zero Banking Alliance where we are a founding member
The greenfield renewable energy projects we financed or advised on in 2022 have a total installed capacity of 15.6 GW and prevent the emission of 152 million tons of CO₂. We also helped expand, enhance and sustain renewable energy brownfield projects with a total installed capacity of 14.8 GW.

The renewable energy projects we financed or advised on in 2022 could power 10.1 million households per year.

(MW financed)

| (Total installed GW financed or advised) D | 15.6 |

| Brownfield Finance | 14.8 |

---

A. Emissions prevented during the projects’ estimated useful lifespans, based on emissions factors figures from the International Energy Agency (updated in 2022 with data from 2020). The estimated allocation to the amount financed by Santander is 51.6 million tons of CO₂. B. Based on final electricity consumption data published by the International Energy Agency (updated in 2022 with data from 2020). C. Greenfield = new projects to be built. Brownfield = projects already existing and producing electricity at the financing date. Installed capacity based on Infralogic and complemented by internal data. D. Of the megawatts attributable to Banco Santander in 2022, 70% were from Greenfield finance and 30% were from Brownfield finance. (*) Includes, among others, hydropower, battery energy storage, mix solar-biomass and energy from waste.
Santander has consistently been the leading Bank in financing renewable energies for the past 10 years and we aim to maintain our leadership.

Source: Based on the league tables provided by Infralogic as of January 2023 for FY2022.
Building on our current offering of green products, we continue to strengthen our sustainable finance proposition with dedicated purpose and sustainability linked financing. Our green financing products and services are designed around five key verticals, adapted to the specific needs of our customers in all geographies.

As a leading retail and commercial banks, we have responsibility to help our Corporates, SMEs and individual clients go green.
Providing sustainable solutions to our customers in Consumer Finance & Santander España

**Santander Consumer Finance Green proposition already a reality**

- >144,000 Electric cars financed: €4.6 bn
- Electric vehicles representing 25.8% of new business – new cars in September YTD

**Consumer (non-auto) business already green:**

- Solar Panels
- Green heating systems
- Chargers
- Bikes & e-bikes
- Eco cards
- Green fashion
- Social Education
- Retrofit

**Santander España Sustainable product proposition**

**Products for SME’s**

- Green Loans – 5 verticals
  - Green Buildings
  - Clean mobility
  - Renewable Energy
  - Sustainable Agro
  - Circular economy

**Non-financial offer**

- Carbon footprint calculation and compensation for individual customers
- Eco cards
- Home and mobility eco simulators
- Sustainability certification for SME’s provided by AENOR in partnership with Santander
- Platform to help companies manage and benefit from public aid and the NextGenEU funds

**Real products offer:**

- Real estate developers
- Green mortgage
- Home retrofitting loans
- ECO Renting / leasing mobility
- Renovation of agricultural machinery, and EIB sustainable Agro line
- Photovoltaic leasing for the installation of solar panels

**Subscription Services**

- New agreements with OEM specialists
- New finance product catalogue for EVs

**Note:** Non-exhaustive, selected examples
We believe protecting the Amazon rainforest is key to tackle climate change. Santander was the first private-sector Brazilian bank to develop in 2002 credit analysis that considered environmental and social risks, and in 2016, we were the first to formally incorporate a sustainability rating into the credit score of our corporate clients.

Collective action is critical to enable a sustainable transition in the beef sector. Febraban announced in May 2023 the approval of a new voluntary standard (NORMATIVO SARB 026/2023) that reflects the alignment amongst 21 banks towards financing beef processing clients. As such, we are currently refining our implementation framework to support this unprecedented move by the Brazilian Financial sector.

**Actions taken:**

- Loan requests by farmers & ranchers are checked for embargoes related to illegal deforestation
- Client’s practices are reviewed annually (more than 2,000 clients), including beef processors, soy traders and logging companies
- Founders of The Round Table on Responsible Soy (RTRS)
- As part of its credit approval for loans to farmers and ranchers, Santander works with a satellite-imaging firm that monitors 17,000 properties that are financed or that are taken as collateral
- For corporate clients across Brazil, not just in the Amazon region, Santander has a set of processes and controls that take into consideration if our clients are legally compliant and have good practices
- Santander continues to engage with other concerned parties to stop deforestation. It was the first bank in Brazil to require native-species lumber companies to have the Forest Stewardship Certification (FSC) to become a client, as well as the RSPO (Round Table on Sustainable Palm Oil) and RTSR certifications

Note: FSC stands for Forest Stewardship Certification; RSPO stands for Round Table on Sustainable Palm Oil.
Financial Inclusion, Empowerment & Community support
At Santander we seek to provide tailored finance to those facing difficulties while trying to access credit, by designing solutions for individuals and SMEs in financial distress. The Group is leading numerous global initiatives to promote social progress.

"Banks have a critical role to play in supporting inclusive and sustainable growth around the world. We are part of the solution, supporting our employees and customers while delivering sustainable returns to our shareholders."

Ana Botín
Executive Chairman

- 12,2 mn People financially empowered since 2019, exceeding our 10 mn target before 2025
- €864 mn Disbursed microcredits in 2023
- €63 mn Invested in community support programmes
- €100 mn Granted to Universities

People financially empowered since 2019, exceeding our 10 mn target before 2025
Disbursed microcredits in 2023
Invested in community support programmes
Granted to Universities
We continue to help people access the financial system and set up micro-businesses while we provide them with the appropriate tools to manage their finances. **Santander Finance for All** is our initiative to support financial inclusion and empowerment. We financially empower people in three ways:

**Access**
We help people access and use basic financial services through simple payment platforms and cash in/cash out services in remote and small communities.

**Finance**
We provide tailored finance to individuals and SMEs with difficulty accessing credit or that are in financial distress.

**Financial Education**
We help people gain financial knowledge, making economic concepts more understandable and enabling them to make better financial decisions.
Financial Inclusion, Empowerment & Community support

Financial Inclusion & Empowerment - Key initiatives

We are proud to have developed financial inclusion initiatives that have been successfully implemented in the LATAM region.

Prospera is the largest microfinance programme offered by a private bank in Brazil. Created in 2002, it helps people without access to formal banking. Since 2015 it has offered microloans and other products at social inclusion in Colombia & Peru in 2021, and with the following figures as of December 2022:

- >718 mn € of funding disbursed
- >1.1 mn Microentrepreneurs helped

Launched in 2017, Tuiio is a financial inclusion programme in Mexico for low-income households, designed to make a positive impact by offering competitive microloans, especially to support and develop businesses with the following figures as of December 2022:

- >138 mn € of funding disbursed
- >300 k Microentrepreneurs helped
Financial Inclusion, Empowerment & Community support

Community support - Higher Education

We believe education is the bedrock of financial inclusion and customer protection, that is why it sits at the core of our Responsible Banking agenda, and it is fostered through different initiatives.

Corporate Governance
Corporate Governance | Our strengths

As a responsible bank we have a clear, robust governance. Best practices on governance are channelled to all our subsidiaries, as part of our global Governance Model.

Effective engagement with our shareholders
- Commitment to **maximise the disclosure and quality of information**
- Our remote attendance electronic application enabled online participation in a virtual-only format for the 2021 AGM, the 2022 AGM was held in a hybrid format. Irrespective of the AGM format, our Shareholders were able to fully exercise all their rights, attend and participate in the meetings in real time.
- Update of our policy on communication and engagement with shareholders and investors.

Effective board of directors
- **Majority of independent directors**
- **Balanced, qualified and diverse composition** in the boardroom
- **Separate and complementary roles** of Chairman and CEO, and leadership of our lead independent director
- **Transparency and simplification of remuneration** with performance metrics aligned with shareholder interest and the Group’s objectives.

Focus on responsible business practices and attention to all stakeholders’ interests
- **Strong committee** structure supporting the board
- **Good long-standing practices** in corporate governance embedded in our Board Regulations
- **Thematic responsible banking, sustainability and culture committee** in full coordination with the other committees.

High participation in our General Shareholders’ meetings

Publicly communicated responsible banking targets in particular, in relation to climate change.
Corporate Governance | Our strengths

We strive to have a clear and robust governance with well-defined accountability and a prudent management of risks and opportunities to ensure:

- Respect for shareholders’ rights
- A balanced Board composition
- Maximum transparency regarding remuneration
- Be at the forefront of best practices and long-term vision
- Embedding ESG in our decision-making progress
Corporate Governance | **Board composition**

Our Board composition ensures an ongoing effective supervision supported by a well-balanced committee structure.

<table>

Directors appointed for a **3-year term** (1/3 of the Board is subject to re-election on an annual basis)

Geographical diversity: Spanish, US, Portuguese, Brazilian, British and Mexican

Independent Board members: **4.05 average years on board vs 11.1 years in 2011**

Achievement of gender equality: (40-60%)
Corporate Governance | **Executive variable remuneration**

**Aligned with our strategic goals**

- Annual bonus determined by both financial and non-financial metrics, with 70% of them being shareholder-related metrics, and 30% customer-related metrics. Performance is assessed both quantitatively and qualitatively to ensure financial results is as important as what financial results we achieve.

- Long-term objectives related to consolidated Return on tangible Equity (RoTE), Total Shareholder Return (TSR) and Environmental, Social and Governance (ESG) metrics.

**Annual bonus for executive directors subject to meeting financial and non-financial targets**

**Aligned with shareholder interests**

- 50% of variable remuneration is in instruments (25% in shares and 25% in share options).

- Shareholding policy: maximum variable remuneration limited to 200% (over fixed remuneration).

- 60% of variable remuneration is deferred over a 5-year period, with share and share options-based payments subject to a one year holding period after vesting.

**Aligned with regulatory requirements**

- Including malus and clawback policy.

External engagement & Recognition

NASDAQ Welcomes Santander to the sustainable bond network
We drive our responsible banking agenda through a number of local and international initiatives and working groups, which include among others:

**UNEP Finance initiative.** We are a founding signatory to the United Nations Principles for Responsible Banking and signed up to the Collective Commitment to Climate Action (CCCCA) to transition the financial sector to a low-carbon economy faster. In 2020, we participated in Phase II of the UNEP FI project on the TCFD’s recommendations for banks, reporting on the progress made to accelerate the adoption of low-carbon and climate-resilient technologies and business models in society.

We joined the **Green Recovery Alliance** of the European Union and the Consultative Group of the Taskforce on Scaling Voluntary Carbon Markets.

**World Business Council for Sustainable Development (WBCSD).** Our Group Executive Chairman, Ana Botín, sits on the WBCSD’s executive committee. In 2020, we supported the Vision 2050 and Future of Work initiatives and signaled our intention to participate in the new Scaling Positive Agriculture project under the Food, Land & Water Program.

**Equator Principles.** We analyse the environmental and social risks of our lending according to the Equator Principles and help draw up common criteria.

**Banking Environment Initiative (BEI).** We continued to participate in the Bank 2030 initiative, aimed at building a roadmap for the banking industry to help society in the transition towards a low-carbon economy.

**United Nations Global Compact.** We’ve been part of the Global Compact network since 2002. In 2020, we joined the United Nations Global Compact’s gender equality programme. We also joined the Target Gender Equality (TGE) program, launched in 19 countries with the goal of increasing the number of women on company boards and in executive roles.

Founding signatory of the **Net Zero Banking Alliance**, also Santander Asset Management is a member of the **Net Zero Asset Managers Initiative** (both under the umbrella of The Glasgow Financial Alliance for Net Zero - GFANZ). And member of the **United Nations Principles for Responsible Banking**.

Santander participated in the **TNFD (Taskforce for Nature-related Financial Disclosures)** a project coordinated by Global Canopy and UNEP FI. The group has also joined the TNFD Forum.
We engage with ESG ratings to signal our progress and keep improving with their feedback

We maintained our positioning on the MSCI World Index. And we’ve consecutively featured in the S&P DJSI World and Europe indices since 2002 and in the FTSE4Good since 2003

CDP. We were placed in the highest score band (Climate Change A List - Leadership level), improving on governance, risk disclosure, targets and portfolio impact

Sustainalytics. We improved to 22.4 points, maintaining on “medium risk”, improving on business ethics, ESG integration, data privacy and human capital

ESG Corporate Rating by ISS. We improved to 55.6 points, maintaining the ESG performance on “C”, above the sector specific “Prime” threshold

Bloomberg Gender Equality Index (BGEI). We improved to 92.87 points, above the financial sector average (74.11). Highest ranked among banks and second company overall

Santander Climate strategy and four Pillars

Group wide ambition to be Net Zero carbon emissions by 2050

Aligning our portfolio to meet the Paris agreement goals

- **Align portfolios** to ensure the projected carbon emissions are in line with limiting to a 1.5°C temperature increasing accordance with NZBA & NZAMi
  - Cutting exposure to thermal coal mining, and to customers with >10% of revenues coming from thermal coal power
  - Reduce emissions intensity on the power generation, aviation and steel portfolios
  - Reduce absolute emissions for the energy portfolio
  - Halve net emissions for 50% of SAM AUMs in scope 3 by 2030

Supporting our customers in their green transition

- Support our customers transition to a low carbon economy, offering 150 million of customers guidance, advice and investments and business solutions
  - Sustainable investment (AUM under ESG): 100 €bn by 2025 (new)
  - SFCS, key tool to comply with GAR, disclosed

Reducing our environmental impact

- Remain carbon neutral and source electricity from renewable energy by 2025 to reduce our impact on the environment
  - Carbon Neutral in our own operations (since 2020)
  - Electricity used from renewables sources: 100% by 2025

Embedding climate into risk management

- Ensure adherence to regulatory/supervisory expectations & integrate climate considerations into risk management frameworks

TCFD: assessing and reporting Financed emissions of our portfolios

- TCFD: assessing and reporting Financed emissions of our portfolios

- **-20.4%** YoY Change 2021-2022

### Scope 3
- **4,124 tonnes** Paper and cardboard waste
- **-34.8%** YoY Change 2021-2022

---

1. Group’s total emissions increased in 2022 by 18%, due to the employee travel emissions. In the last two years the Covid-19 pandemic caused these emissions to plummet. Comparing these emissions with 2019 annual report data, prior to this exceptional situation, employee travel emissions have been reduced by 33%, and total emissions have been reduced by 58.1%. A 2020-2022 comparative is available in the annex.
Decarbonization Targets | Current exposure
